TABLE OF CONTENTS

Subject Index 60–94 515–918
1980 Subject Classification S1–S34
Errata and Addenda ..... i–v

Index of Mathematical Papers Volume 13
Published by the American Mathematical Society
Providence, Rhode Island USA
ISSN 0025-5629

1980 Mathematics Subject Classification

(As used in Mathematical Reviews beginning in 1980)

00 General
01 History and biography

03 Mathematical logic and foundations
04 Set theory
05 Combinatorics
06 Order, lattices, ordered algebraic structures
08 General mathematical systems

10 Number theory
12 Algebraic number theory, field theory and polynomials
13 Commutative rings and algebras
14 Algebraic geometry
15 Linear and multilinear algebra; matrix theory
16 Associative rings and algebras
17 Nonassociative rings and algebras
18 Category theory, homological algebra

20 Group theory and generalizations
22 Topological groups, Lie groups

26 Real functions
28 Measure and integration
30 Functions of a complex variable
31 Potential theory
32 Several complex variables and analytic spaces
33 Special functions
34 Ordinary differential equations
35 Partial differential equations
39 Finite differences and functional equations

40 Sequences, series, summability
41 Approximations and expansions
42 Fourier analysis
43 Abstract harmonic analysis
44 Integral transforms, operational calculus
45 Integral equations
46 Functional analysis
47 Operator theory
49 Calculus of variations and optimal control; optimization

51 Geometry
52 Convex sets and related geometric topics
53 Differential geometry
54 General topology
55 Algebraic topology
57 Manifolds and cell complexes
58 Global analysis, analysis on manifolds

60 Probability theory and stochastic processes
62 Statistics
65 Numerical analysis
68 Computer science

70 Mechanics of particles and systems
73 Mechanics of solids
76 Fluid mechanics
78 Optics, electromagnetic theory

80 Classical thermodynamics, heat transfer
81 Quantum mechanics
82 Statistical physics, structure of matter
83 Relativity
85 Astronomy and astrophysics
86 Geophysics

90 Economics, operations research, programming, games
92 Biology and behavioral sciences
93 Systems theory; control
94 Information and communication, circuits

60–XX PROBABILITY THEORY AND STOCHASTIC PROCESSES {For additional applications, see 10Kxx, 62–XX, 90–XX, 92–XX, 93–XX, 94–XX. For numerical results, see 65U05.}

60–01 Elementary exposition, textbooks

Blake, Ian F. ★An introduction to applied probability. **81k:60001**
Chatterji, S. D. Wahrscheinlichkeitstheorie—ein mathematischer Überblick. **81c:60001**
Chiang, Chin Long ★An introduction to stochastic processes and their applications. **81i:60001**
Chung, Kai Lai ★Elementary probability theory with stochastic processes. **81k:60002**
Ciucu, George (*with* Tudor, Constantin) ★Probabilităţi şi procese stocastice. Vol. II. (Romanian) [Probabilities and stochastic processes. Vol. II] **81f:60001**
(Gelbaum, Bernard R.) *See* **Svešnikov, A. A., 81f:60002**
Kannan, D. ★An introduction to stochastic processes. **81k:60003**
Larson, Harold J. (*with* Shubert, Bruno O.) ★Probabilistic models in engineering sciences. Vol. I. **81k:60004**
Pfeiffer, Paul E. ★Conditional independence in applied probability. **81h:60001**
Shubert, Bruno O. *See* **Larson, Harold J., 81k:60004**
Stojanov, Jordan M. ★Стохастични процеси—теория и приложение. (Bulgarian) [Stochastic processes—theory and application] **81a:60001**
Svešnikov, A. A. ★Problems in probability theory, mathematical statistics and theory of random functions. **81f:60002**
Tudor, Constantin *See* **Ciucu, George, 81f:60001**

secondary classifications:

Dynkin, E. B. (*with* Uspenskiĭ, V. A.) ★Mathematische Unterhaltungen. (German) [Mathematical conversations] **(81f:00001)**
(Friedel, Peter) *See* **Dynkin, E. B.; et al., (81f:00001)**
Kalbfleisch, J. G. ★Probability and statistical inference. I. **(81b:62001a)**
★Probability and statistical inference. II. **(81b:62001b)**
Uspenskiĭ, V. A. *See* **Dynkin, E. B., (81f:00001)**

60–02 Advanced exposition (research surveys, monographs, etc.)

Dubuc, Serge ★Problèmes d'optimisation en calcul des probabilités. (French) [Optimization problems in the theory of probabilities] **81a:60002**
(Engelbert, Hans-Jürgen) *See* **Ventcel', A. D., 81f:60003a**
(Groß, Jürgen) *See* **Ventcel', A. D., 81f:60003a**
Rao, M. M. ★Stochastic processes and integration. **81i:60002**
Ventcel', A. D. ★Theorie zufälliger Prozesse. (German) [Theory of random processes] **81f:60003a**
★Theorie zufälliger Prozesse. (German) [Theory of random processes] **81f:60003b**

60–03 Historical (must also be assigned at least one classification number from Section 01)

secondary classifications:

(Bernoulli, Jacques) *See* **Fenaroli, Giuseppina, (81f:01011)**
Dupont, Pascal On the "gamblers' ruin" problem: critical review of the solutions of De Moivre and Todhunter of a classical example. (Italian. English summary) **(81c:01020)**
Un joyau dans l'histoire des sciences: le mémoire de Thomas Bayes de 1763. **(81g:01009)**
Fenaroli, Giuseppina The regularity of case in the "Pars Quarta" of the *Ars coniectandi* of Jacob Bernoulli. **(81f:01011)**
Neyman, Jerzy Some memorable incidents in probabilistic/statistical studies. **(81g:62004)**
Seneta, E. Pascal and probability. (*See* **81f:62003**)
Round the historical work on Bienaymé. **(81c:62003)**
Problems in the development of probability theory Notes on some problems concerning the development of probability theory. (Chinese) **(81i:01005)**

60–04 Explicit machine computation and programs (not the theory of computation or programming)

(Kahn, P. M.) *See* **Computational probability, 81k:60005**
Computational probability ★Computational probability. **81k:60005**
Conference:
Actuarial Research, Computational Probability ★Computational probability. **81k:60005**
Probability ★Computational probability. **81k:60005**
Providence, R.I. ★Computational probability. **81k:60005**

60–06 Proceedings, conferences, etc.

(Adomian, G.) *See* **Applied stochastic processes, 81j:60001**
(Azéma, Jacques) *See* **Seminar: Probability, 81f:60004**

All-Union Conference:
Variational-Difference Methods in Mathematical Physics
★Вариационно-разностные методы в математической физики. (Russian) [Variational-difference methods in mathematical physics] **81b:65007**
Amsterdam ★Colloquium: Numerical Treatment of Integral Equations. **81c:65004**
Analysis and computation of fixed points ★Analysis and computation of fixed points. **81j:65003**
Analytical and numerical approaches to asymptotic problems in analysis ★Analytical and numerical approaches to asymptotic problems in analysis. **81m:65005**
Applied mathematics ★Численные методы оптимизации (прикладная математика). (Russian) [Numerical methods of optimization (applied mathematics)] **81d:65003**
Approximation theory ★Numerical methods of approximation theory. Vol. 5. **81d:65002**
Bergamo ★Nonlinear optimization. **81j:65006**
Berlin ★Fundamentals of numerical computation (computer-oriented numerical analysis). **81j:65005**
★Семинар: Численные Методы Решений Уравнений Баланса. (Russian) [Seminar on Numerical Methods for Solving Balance Equations] **81j:65013**
Boundary value problems of mathematical physics ★Краевые задачи математической физики. (Russian) [Boundary value problems of mathematical physics] **81a:00006**
Colloquia Mathematica Societatis János Bolyai ★Numerical methods. **81j:65008**
Colloquium:
Numerical Methods ★Numerical methods. **81j:65008**
Numerical Treatment of Integral Equations ★Colloquium: Numerical Treatment of Integral Equations. **81c:65004**
Computational methods and computer software ★Вычислительные методы и математическое обеспечение ЭВМ. (Russian) [Computational methods and computer software] **81j:65004**
Computer software ★Вычислительные методы и математическое обеспечение ЭВМ. (Russian) [Computational methods and computer software] **81j:65004**
Computers ★Proceedings of the 1980 Army Numerical Analysis and Computers Conference. **81m:65007**
Computing ★Proceedings of the Ninth Manitoba Conference on Numerical Mathematics and Computing. **81j:65011**
Computing methods in applied sciences and engineering ★Computing methods in applied sciences and engineering. **81h:65001**
Conference:
Analytical and Numerical Approaches to Asymptotic Problems in Analysis ★Analytical and numerical approaches to asymptotic problems in analysis. **81m:65005**
Army Numerical Analysis and Computers ★Proceedings of the 1980 Army Numerical Analysis and Computers Conference. **81m:65007**
Constructive Methods for Nonlinear Boundary Value Problems and Nonlinear Oscillations ★Constructive methods for nonlinear boundary value problems and nonlinear oscillations. **81a:65006**
Finite Element Methods ★Finite element methods in engineering. **81a:65007**
Fundamentals of Numerical Computation ★Fundamentals of numerical computation (computer-oriented numerical analysis). **81j:65005**
Manitoba, Numerical Mathematics and Computing ★Proceedings of the Ninth Manitoba Conference on Numerical Mathematics and Computing. **81j:65011**
Numerical Analysis ★Numerical analysis. **81b:65005**
Numerical Methods of Approximation Theory ★Numerical methods of approximation theory. Vol. 5. **81d:65002**
Constructive methods for nonlinear boundary value problems and nonlinear oscillations ★Constructive methods for nonlinear boundary value problems and nonlinear oscillations. **81a:65006**
Continuum physics ★Seminar on Numerical Analysis and its Applications to Continuum Physics. **81i:65003**
Cubature formulas ★Теория кубатурных формул и приложения функционального анализа к задачам математической физики. (Russian) [Theory of cubature formulas and the application of functional analysis to problems of mathematical physics] **81a:65009**
★Теория кубатурных формул и приложения функционального анализа к задачам математической физики. (Russian) [Theory of cubature formulas and the application of functional analysis to problems of mathematical physics] **81a:65010**
Difference and variational-difference methods ★Разностные и вариационно-разностные методы. (Russian) [Difference and variational-difference methods] **81b:65003a**
Dundee ★Numerical analysis. **81b:65005**
Finite element methods in engineering ★Finite element methods in engineering. **81a:65007**
Finite elements ★Journées "Éléments Finis". **81b:65004**
Fixed points ★Analysis and computation of fixed points. **81j:65003**
Functional analysis ★Теория кубатурных формул и приложения функционального анализа к задачам математической физики. (Russian) [Theory of cubature formulas and the application of functional analysis to problems of mathematical physics] **81a:65009**
★Теория кубатурных формул и приложения функционального анализа к задачам математической физики. (Russian) [Theory of cubature formulas and the application of functional analysis to problems of mathematical physics] **81a:65010**
Fundamentals of numerical computation (computer-oriented numerical analysis) ★Fundamentals of numerical computation (computer-oriented numerical analysis). **81j:65005**
Integral equations ★Colloquium: Numerical Treatment of Integral Equations. **81c:65004**
★Numerical treatment of integral equations. **81j:65009**
Journées:
Éléments Finis ★Journées "Éléments Finis". **81b:65004**

Kesthely ★Numerical methods. **81j:65008**
Knoxville, Tenn. ★Sparse Matrix Proceedings 1978. **81f:65003**
Lectures:
Problem Seminar on Mathematical Procedures ★Vorträge aus dem Problemseminar Mathematische Verfahrenstechnik. (German) [Lectures from the Problem Seminar on Mathematical Procedures] **81f:65002**
Linear algebra ★Вычислительные методы линейной алгебры. (Russian) [Numerical methods in linear algebra] **81b:65003b**
Madison, Wis. ★Analysis and computation of fixed points. **81j:65003**
Mathematical physics ★Теория кубатурных формул и приложения функционального анализа к задачам математической физики. (Russian) [Theory of cubature formulas and the application of functional analysis to problems of mathematical physics] **81a:65009**
★Краевые задачи математической физики. (Russian) [Boundary value problems of mathematical physics] **81a:00006**
★Теория кубатурных формул и приложения функционального анализа к задачам математической физики. (Russian) [Theory of cubature formulas and the application of functional analysis to problems of mathematical physics] **81a:65010**
★Вариационно-разностные методы в математической физики. (Russian) [Variational-difference methods in mathematical physics] **81b:65007**
Moffett Field, Calif. ★Proceedings of the 1980 Army Numerical Analysis and Computers Conference. **81m:65007**
Nijmegen ★Analytical and numerical approaches to asymptotic problems in analysis. **81m:65005**
Nonlinear boundary value problems ★Constructive methods for nonlinear boundary value problems and nonlinear oscillations. **81a:65006**
Nonlinear optimization ★Nonlinear optimization. **81j:65006**
Nonlinear oscillations ★Constructive methods for nonlinear boundary value problems and nonlinear oscillations. **81a:65006**
Novosibirsk ★Разностные и вариационно-разностные методы. (Russian) [Difference and variational-difference methods] **81b:65003a**
★Вычислительные методы линейной алгебры. (Russian) [Numerical methods in linear algebra] **81b:65003b**

Recent advances in numerical methods in fluids ★Recent advances in numerical methods in fluids. Vol. 1. **(81j:76002)**
Seminar:
Application and Numerical Solution of Integral Equations ★The application and numerical solution of integral equations. **(81f:45001)**
Functional Analysis and its Applications ★A survey on the theoretical and numerical trends in nonlinear analysis. II. **(81i:47055)**
Special Topics of Applied Mathematics ★Special topics of applied mathematics. **(81j:46003)**
Special topics of applied mathematics ★Special topics of applied mathematics. **(81j:46003)**
Summer School:
Variational Inequalities and Optimization Problems ★Variational inequalities and optimization problems. **(81i:49001)**
Survey on the theoretical and numerical trends in nonlinear analysis ★A survey on the theoretical and numerical trends in nonlinear analysis. II. **(81i:47055)**
Symposium:
Applications of Mathematics in System Theory ★Proceedings of the International Symposium on Applications of Mathematics in System Theory. I. **(81j:93006a)**
★Proceedings of the International Symposium on Applications of Mathematics in System Theory. II. **(81j:93006b)**
Quantitative Approximation ★Quantitative approxdmation. **(81i:41001)**
System theory ★Proceedings of the International Symposium on Applications of Mathematics in System Theory. I. **(81j:93006a)**
★Proceedings of the International Symposium on Applications of Mathematics in System Theory. II. **(81j:93006b)**
Theory of cubature formulas and the application of functional analysis to problems of mathematical physics ★Теория кубатурных формул и приложения функционального анализа к задачам математической физики. (Russian) [Theory of cubature formulas and the application of functional analysis to problems of mathematical physics] **(81f:35006)**
Variational inequalities and optimization problems ★Variational inequalities and optimization problems. **(81i:49001)**
Workshop:
Bifurcation Problems and their Numerical Solution ★Bifurcation problems and their numerical solution. **(81i:58003)**

65A05 Tables

Char, Bruce W. On Stieltjes' continued fraction for the gamma function. **81b:65008**
Fransén, Arne (*with* Wrigge, Staffan) High-precision values of the gamma function and of some related coefficients. **81f:65004**
Lambin, Ph. (*with* Vigneron, J. P.) Tables for the Gaussian computation of $\int_0^\infty x^\alpha e^{-x} f(x)\,dx$ for values of α varying continuously between -1 and +1. **81i:65004**
Rappoport, Ju. M. ★Таблицы модифицированных функций Бесселя $K_{\frac{1}{2}+i\beta}(x)$. (Russian) [Tables of modified Bessel functions $K_{\frac{1}{2}+i\beta}(x)$] **81j:65014**
Tomitsuka, Takeshi Convenient tables of the Pythagoras numbers, and some others. (Japanese) **81c:65005**
Vigneron, J. P. *See* **Lambin, Ph., 81i:65004**
Wrigge, Staffan *See* **Fransén, Arne, 81f:65004**
Tables:
